

Machine Learning for Healthcare Analytics Projects: Build smart AI applications using neural network methodologies across the healthcare vertical market (Paperback)

Filesize: 3.13 MB

Reviews

Undoubtedly, this is the greatest job by any author. It is actually filled with wisdom and knowledge I am quickly could get a pleasure of reading a written book.

(Kade Ankunding)

MACHINE LEARNING FOR HEALTHCARE ANALYTICS PROJECTS: BUILD SMART AI APPLICATIONS USING NEURAL NETWORK METHODOLOGIES ACROSS THE HEALTHCARE VERTICAL MARKET (PAPERBACK)

To read **Machine Learning for Healthcare Analytics Projects: Build smart AI applications using neural network methodologies across the healthcare vertical market (Paperback)** PDF, you should follow the button below and save the file or gain access to other information which are related to MACHINE LEARNING FOR HEALTHCARE ANALYTICS PROJECTS: BUILD SMART AI APPLICATIONS USING NEURAL NETWORK METHODOLOGIES ACROSS THE HEALTHCARE VERTICAL MARKET (PAPERBACK) ebook.

Packt Publishing Limited, United Kingdom, 2018. Paperback. Condition: New. Language: English. Brand new Book. Create real-world machine learning solutions using NumPy, pandas, matplotlib, and scikit-learn

Key Features

- Develop a range of healthcare analytics projects using real-world datasets
- Implement key machine learning algorithms using a range of libraries from the Python ecosystem
- Accomplish intermediate-to-complex tasks by building smart AI applications using neural network methodologies

Book Description

Machine Learning (ML) has changed the way organizations and individuals use data to improve the efficiency of a system. ML algorithms allow strategists to deal with a variety of structured, unstructured, and semi-structured data. Machine Learning for Healthcare Analytics Projects is packed with new approaches and methodologies for creating powerful solutions for healthcare analytics. This book will teach you how to implement key machine learning algorithms and walk you through their use cases by employing a range of libraries from the Python ecosystem. You will build five end-to-end projects to evaluate the efficiency of Artificial Intelligence (AI) applications for carrying out simple-to-complex healthcare analytics tasks. With each project, you will gain new insights, which will then help you handle healthcare data efficiently. As you make your way through the book, you will use ML to detect cancer in a set of patients using support vector machines (SVMs) and k-Nearest neighbors (KNN) models. In the final chapters, you will create a deep neural network in Keras to predict the onset of diabetes in a huge dataset of patients. You will also learn how to predict heart diseases using neural networks. By the end of this book, you will have learned how to address long-standing challenges, provide specialized solutions for how to deal with them, and carry out a range of cognitive tasks in the healthcare domain. What you will learn

- Explore super imaging and natural language processing (NLP) to classify DNA sequencing
- Detect cancer based on the...
